

## **Introduction**

### **Sue Hansen**

It is my pleasure to introduce our speaker today. Sue is a professional speaker, trainer, and motivational humorist. Sue has a Bachelor's of Arts in Psychology and has completed graduate work towards her Masters in Business. Sue is also certified in Behavior Style Analysis and uses this knowledge as a basis for her training sessions on team performance, leadership and communication. With nearly 20 years experience in operations, marketing and management, primarily with an emphasis in the health care industry, Sue punctuates her training with lessons learned, battles fought and losses minimized. After the sale of her diagnostic imaging business in Philadelphia Sue and her husband moved back to Colorado where they live on top of a mesa with a 360 view of the San Juan Mountains.

Sue helps people be better people, it's her mission, her mantra and her passion.

Please help me welcome, Sue Hansen
